Scattered Liquidation Market Flooded With Brings Lower Range, Supported on Breaks.

CHICAGO, April 28.-Evening up continues under way in May wheat and while there was some scattered Eastern connections. The Greek orold grain and buying of July as a to go slow on either side of the market by traders at the present time waiting to see how the de-liveries on May contracts were taken care of. Political develop-ments at Geroa had an important effect on Liverpool, which closed 1224d lower, but the effect of the decline was very limited here. Crop reports from the Southwest show improvement and those from Europe improvement and those from Europe

Corn and oats showed a firm under-tone. The seaboard has advanced its bid on cash corn and the price is now said to be practically the same as a delivery basis as compared with the May. Minneapolis cash in-terests have made larger sales of oats to the East, 225,000 bushels being confirmed as having been done yesterday, but the total is under-stood to materially exceed this figure. A good export business was put through in both corn and oats at the seaboard.

Provisions were dull and it took but little selling to offset the effect of an advance of 10a15 cents in hogs.

Top price at the yards was 10.75, with bulk of sales at 10.25a10.65. Receipts 23.000, with 7.000 for to-morrow. Western run 74.000 against morrow. Western run 74,000, against 62,200 a week ago and 84,400 last year. Money steady, call 4½, time 5a5½. Exchange per

IMPROVED TONE

NEW YORK, April 28.—The cotton market was a little more active today and firmer in tone with prices showing some renewed advancing tendency. It was largely due to the excessive rains of the last three to four days in Texas and parts of Oklahoma and Arkansas, bringing in some unfavorable cron accounts to Oklahoma and Arkansas, bringing in some unfavorable crop accounts to-day with the extension of the rainy weather over the Atlantic States as well as the central part of the belt. The weather forecast was for clearing weather for the western half of the belt tonight and tomorrow, but for continued unsettled and rainy weather over the Central and Eastweather over the Central and East-ern States.

Prices here went off 5 to 9 points

here went off 5 to 9 points in the early trading from some scatin the early trading from some scat-tered overnight selling orders and some local selling pressure. May de-clined to 17.36, July 17.55, October 17.57 and December to 17.67. These, however, proved to be the lowest prices of the day. The market grad-ually advanced in the later trading to between 13 and 20 points over yesterday's closing with May going up to 18.18, July 17.75, October 17.83, and December to 17.56. The market held most of this improvement durand December to 17.86. The market held most of this improvement during the afternoon, although the volume of busi less then tapered of again to comparatively small proportions. The prespect for a bullish statement of week-end figures, however, kept the undertone of the market good. Southern spot markets were steady and generally unchanged.

\$235,000,000 Capital Issues in Week.

NEW YORK, April 28 .- Prelimivesterday and today. The week's seem still confident, however, that the present softening in bond prices comes simply from profittaking and that general trend will continue upward.

Support for that point of view may be had, it would appear, from study of the character of bonds their own territory in good style so far, and there are a number of poorer bonds which have suffered little or no loss, but speculative issues whose recent improvement has been sharp have been unloaded at the market in many cases. While ings by traders fearful of a col-lapse in prices.
